Career Objective

Motivated Artificial Intelligence and Data Science student with strong knowledge in programming, web development, and machine learning. Seeking an opportunity to apply technical and problem solving skills to develop efficient real world solutions while continuously learning and growing in the technology field.

Technical Skills

Programming Languages: Python, Java

Web Development: HTML, CSS, JavaScript, Full Stack Development

Database: MySQL, MongoDB

Libraries: NumPy, Pandas, Scikit Learn

Tools: Git, GitHub, Visual Studio Code, Orange

Concepts: Object Oriented Programming, Data Structures and Algorithms, Machine Learning, Deep Learning

Internship Experience

Ideadevy Technologies: Intern. Worked on developing responsive web pages using HTML and CSS and followed structured modules to strengthen frontend development skills.

Approtech Technologies: Intern. Gained hands on experience in web application development and completed assignments related to programming and web technologies.

Projects

Smart Task Manager With Live Updates: Developed a task management application to organize and track daily activities with real time reminders.

Smart Parking Finder: Designed a system that helps users locate nearby parking spaces using location based tracking.

Dual Tracking System: Built a monitoring system that tracks two processes simultaneously and provides real time status updates.

Education

PSR Engineering College: Bachelor of Technology in Artificial Intelligence and Data Science

Thamarai International School: Higher Secondary Certificate

Vels Public School: Secondary School Leaving Certificate

Certifications

Machine Learning Certification: Internshala

100 Days of Code Python Bootcamp: Udemy

Full Stack Development: Ideadevy Technology
